The Suba Pile Lifter PL-1100 is predominantly employed for handling the full size format. It makes machine operations quicker, efficient and more ergonomic. The operator loads the material directly into the machine at an ergonomic height. The lift can also be used for stacking the material.

AREA OF USAGE: Blanking machine, Cutting machine, Die cutting machine and etc.,

CUSTOMER BENEFITS:

- Increases the efficiency of the machine because working height remains constant throughout loading and unloading.
- Lifting heavy loads is reduced to a minimum.
- Operator's productivity curve remains constant.
- Substantial reduction of employee load.

FEATURES:

- Adjustable photoelectric sensor control for auto levelling.
- Easy access for pallet mover to enter the lifter platform.
- Ergonomic design – increases efficiency of operator as the working height remains constant throughout the blanking process.
- Automatic lifting up and down platform movement.
- High production capacity.
- Can be used as a lifting accessory for any machinery.

Model	PL 1100
Table dimension (L*W)(mm)	1184 X 1000
Max size of paper (L*W)(mm)	1060 X 760
Max. Platform stroke (mm)	900
Max. Loading capacity (KG)	1.2T
Power supply mode	3Phase, 415V
Power (KW)	1.5
Net weight (KG)	500
Machine size (L*W*H)(mm)	1670 X 1480 X 1800
Origin	India
